## Request for Service

### Notes & Explanations

All prices include GST

1. **Window Cleaning:** The average cost for a bungalow is \$147 and for a 2 storey/split level the average cost is \$168. Every house is unique and factors affecting cost are: number of windows; condition of windows; difficulty in accessing windows; proximity of trees, wires etc. Fall Window Cleaning will be completed before the end of September.
2. **Eaves Trough:** The average cost for a house is \$147 (minimum \$105/house, \$84/garage). Factors that will result in higher fees are: extra full eaves; clogged down spouts that require disconnecting; more than 4 down spouts; trimming overhanging tree branches is required; or if roof cleaning with leaf blower & collecting fallen branches & leaves is requested (optional service, please select this service on page 1). I will need to trim tree branches which prevent me from safely accessing the eaves trough. If you have overhanging branches, please let me know if you want more than the minimum amount of branches trimmed above your roof.

I generally wait until most of the Elm seeds have fallen before beginning spring eaves cleaning, usually mid-June. For fall eaves cleaning I will call & let you know when I plan on coming. Please remember I am unable to clean eaves if there is snow or frozen water present. You will be charged if I need to trim branches closely overhanging the eaves. Branches cause clogged eaves, damage to eaves and shingles, and make it unsafe when cleaning the eaves.

3. For **Lawn Aeration** please mark all sprinkler locations with bamboo garden sticks or homemade flags. In the spring the sprinkler heads are often very difficult to see. I will look for hidden sprinkler heads & mark them but I am not responsible for damaged sprinkler heads if you do not mark them. I will call you before I come.
4. **Spring clean-up:** There are 2 options; 1) power raking & vacuuming of lawns only, or 2) full spring clean-up adds cleaning of flower beds, around hedges, shrubs & treed areas etc. The minimum fee for power raking & vacuuming alone is \$126 with an average cost of \$147. The Average cost for full spring clean-up is \$273.  
**Fall clean-up:** There are 2 options: 1) collecting leaves from just the lawn; or 2) from the entire yard which includes lawn, patio areas, sidewalks, window wells etc. There is a minimum fee of \$126 with the average price for fall clean-up being \$300. Cost varies depending upon the amount of leaves.  
Removal and disposal of all leaves and yard waste is included. Should there be too many bags to remove at the time of service we will return for them at a later date.

5. The **Tree Banding** fee is charged when the bands are put on and includes:
  - installing the tree band in late summer;
  - re-greasing in early spring & removal in late spring.This is a continuous annual service which will be repeated each year unless you cancel.

**Bookings are limited so please send this form in early. I will contact you to confirm your booking. You can submit your request:**

- by phone to 306-347-0104;
- by mail using the self-addressed envelope I have provided; or,
- by e-mail using this form on my website at [www.ricksyardcare.ca](http://www.ricksyardcare.ca) (requires Adobe Reader 11.0 or newer)

**Please feel free to contact me with any questions**

**Thank you for your business**
